Custom Solutions

We can custom-build our standard monitors with any of the following options.

Or, we can build a completely custom unit from the ground up.

ENCLOSURES

HOUSING: ABS or rugged metal enclosures.

OPEN FRAME: No housing; ideal for machine builders

WATERPROOF ENCLOSURES: NEMA 4 and IP-rated enclosures

PANEL MOUNT: In indoor and outdoor configurations.

RACK MOUNT: Compatible with EIA 19" rack. Single, Dual, or Triple displays

COLORS: Custom colors for OEM's

FACE TREATMENTS

GLASS PANEL: Glass placed in front of the LCD screen for protection; has Anti-Reflective (A/R) coating on both sides to minimize glare while enhancing the image quality.

TOUCH SCREEN: Available in SAW, Resistive, and Capacitive technologies.

OPTICAL BONDING: Optical grade resin injected between LCD screen and a glass panel for superior image. Greatly improves viewability for outdoor applications.

SUNLIGHT READABLE/ HIGH-BRIGHT: Enhanced backlighting to achieve 1000 nit and higher brightness.

Custom Solutions

VIDEO

VIDEO INPUTS: VGA, HDMI, S-Video, HD-SDI, DVI, Analog, BNC Loop-Thru, NTSC/PAL

ELECTRICAL

CUSTOM TIMING: Custom signal programming available to meet proprietary and legacy video signal requirements.

SPECIAL VOLTAGES: 12V-24VDC, 90-240VAC and universal AC/DC voltage models

OTHER POPULAR OPTIONS:

MAGNETIC CARD READERS: Available for POS systems in USB or RS-232

MOUNTING: VESA mounting holes are standard; brackets & stands are available

INTEGRATED PC: Built-in PC for an all-in-one solution.

INTEGRATED MEDIA PLAYER & DVR: For convenient data storage.

BUILT-IN CAMERA: CCD camera built into the front bezel.

PRIVATE-LABEL: Your company name, logo, and model number on the monitor, labels, and shipping cartons.

NARROW BEZEL: Enhance the look of video walls

TRU-Vu Industrial Monitors

VS
