

### VM-8K

#### Portable Color LCD Monitor Kit

- 8" TFT Active Matrix Color LCD
- 640 x 480 Resolution
- Video Inputs: VGA, Composite, NTSC/PAL
- Compact and Lightweight
- Complete Kit Includes Everything You Need
- Ideal For Field Service Technicians and Installers
- 3 Year Warranty

The **TRU-VU** VM-8K is a tremendously helpful tool, designed specifically for field video technicians and installers. Its sharp image and crisp colors let you tune-in and focus cameras to the best image possible, quickly and accurately. (This is nearly impossible with low-resolution, smaller monitors). The VM-8K is ideal for camera installation, maintenance and troubleshooting.

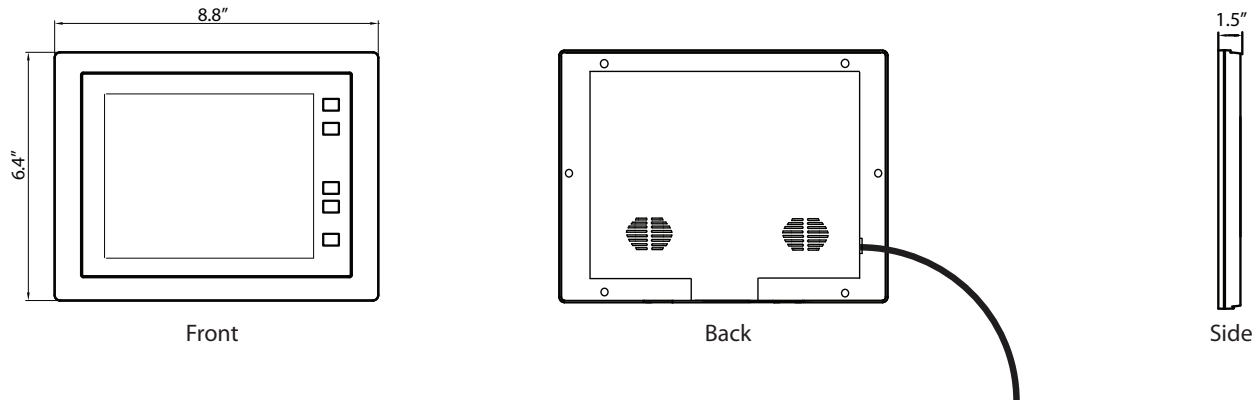

The VM-8K monitor features a rugged yet lightweight housing, with a rubberized coating to provide a sure grip as you're walking, climbing or crawling around an installation site.

The VM-8K is provided as a complete Field Service Kit, which includes an 8" LCD monitor, Li-Ion battery pack, battery charger/wall transformer, BNC cable, VGA cable, and remote control, all in a durable aluminum travel case. Visit [www.TRU-VUMonitors.com](http://www.TRU-VUMonitors.com) for more details.
